

T V JEEVA ANANDHAN

Software Engineer — Cross-Platform Mobile & Full-Stack Development

+91 7904551480 • jeevaanandhan503@gmail.com • linkedin.com/in/jeeva-anandhan-535768289 • Chennai, Tamil Nadu 600124

PROFESSIONAL SUMMARY

Full-stack and mobile software engineer with 1+ year of hands-on experience building cross-platform applications (Flutter) and scalable backend services (Node.js, ASP.NET Core, C#) deployed across Android, iOS, and web. Proven track record leading a project end-to-end, from architecture through production deployment, including a dynamic customization engine that generates production-ready mobile apps for external clients. Skilled at implementing RESTful APIs for real-time data synchronization between web and mobile clients, and comfortable working across Agile Scrum, Kanban, and Waterfall SDLC environments. Strong foundation in performance optimization, database design (PostgreSQL, MySQL, MongoDB), and translating high-level product requirements into working, maintainable code.

TECHNICAL SKILLS

- Cross-Platform & Mobile: Flutter (Android & iOS app generation), responsive UI development, app packaging & deployment
- Languages: C#, Dart, JavaScript, HTML, CSS
- Frameworks & Runtimes: ASP.NET, .NET Core, Blazor, Node.js, RESTful API design
- Databases: PostgreSQL, MySQL, MongoDB
- Tools / IDEs: Visual Studio 2019 & 2022, VS Code, Git
- Cloud: AWS fundamentals (Certified Cloud Practitioner)
- SDLC Methodologies: Agile Scrum, Kanban, Waterfall

WORK EXPERIENCE

Project Lead | JBB Softech Pvt Ltd

2025 – Present (1 Year)

- Led end-to-end development of APPIFYOURS, a web-to-app platform enabling clients to generate fully customized, production-ready mobile applications for Android and iOS without writing code.
- Architected the platform using Flutter for cross-platform mobile app generation, Node.js for scalable backend APIs, and MongoDB for flexible data management.
- Designed a dynamic customization engine that converts client web content and branding into deployable Flutter mobile applications, reducing manual app-build effort for clients.
- Implemented RESTful APIs to handle real-time data synchronization between the web dashboard and generated mobile apps, ensuring a seamless cross-platform user experience.
- Collaborated with cross-functional teams under Agile practices to define project scope, set milestones, and ensure on-time delivery of platform features and client app builds.

Software Developer | AI Lab Technology

Feb 2024 – Dec 2024

Document AI System

- Built an intuitive front-end interface using HTML and CSS to improve document review workflows.
- Developed a robust C# back-end service for efficient, accurate document processing and format conversion.

Timesheet Management System

- Optimized data flow using PostgreSQL in a two-tier architecture to support employee hours and payroll processing.
- Streamlined timesheet management with grid views and file-upload functionality, improving data accuracy and user interaction.
- Built admin and director dashboards surfacing monthly payroll and employee insights, supporting faster decision-making.

ERP System

- Implemented and customized ERP modules (sales, purchase, vendor portal) to streamline procurement, order tracking, and invoicing.
- Deployed ERP front-end modules that enhanced workflows and user access; authored reports and delivered end-user training and ongoing support.

Software Development Intern | Ek Software Solutions*Jun 2023 – Jul 2023*

- Developed and managed a retail management system using .NET technologies.

Web Development Intern | Tech Volt Software Pvt Ltd*May 2022 – Jun 2022*

- Assisted in web development tasks and gained hands-on exposure to .NET technologies in a production environment.

ACADEMIC PROJECT

Movie Reviews Using ML Algorithms

- Implemented NLP algorithms and MLP models to analyze movie reviews and predict user emotions from emoji reactions.
- Developed personalized counseling messages driven by emotional insights derived from user review data.
- Built the front-end interface using HTML and CSS.

EDUCATION

Bachelor of Technology – Computer Science & Engineering

Periyar Maniammai Institute of Science & Technology (PMIST) | 2020 – 2024 | CGPA: 7.46

CERTIFICATIONS & AWARDS

- AWS Certified Cloud Practitioner — ICT Academy, October 2022
- .NET with SQL (VAC) — PMIST, March 2022
- Power BI — PMIST, August 2023
